

## **ALL EVENTS & WORKSHOP DESCRIPTION**

### **EVENTS**

#### **ROBO FEVER**

##### **1. PICK & PLACE**

###### **Description**

The Pick and Place Competition is a test of precision, efficiency, and design innovation. Teams must build a manually or autonomously controlled robot capable of picking up objects and placing them in designated zones within a given time.

##### **2. RC Car Racing**

###### **Description**

The RC Car Racing Competition is a high-speed event designed to test the engineering skills, control, and strategy of participants. Teams must design and operate a remote-controlled (RC) car to complete laps on a challenging track in the shortest possible time.

##### **3. RC Boat Racing**

###### **Description**

The RC Boat Racing Competition is an exciting event that challenges participants to design and operate remote-controlled (RC) boats to complete laps on a water track in the shortest possible time.

### **TEXPLORER**

##### **1. TEX QUIZ**

###### **Description**

Textile Quiz Competition: Weave Your Knowledge!"

Put your textile expertise to the test in our Textile Quiz Competition! Whether you're a student, professional, or textile enthusiast, this competition is your chance to showcase your knowledge, compete with the best, and win exciting prizes.

Are you ready to unravel the world of textiles? Join us and prove your expertise!

## **2. Style your partner**

Unleash your creativity in Style Your Partner, a unique fashion challenge where teams transform textiles into stunning outfits! With a mix of fabric, accessories, and design skills, participants will craft stylish looks for their partners within a set time. Whether it's traditional elegance or modern trends, this event tests your fashion sense, innovation, and styling abilities.

Think fashion, think creativity—are you ready to style and shine?

## **3. Draw Your Design**

### **Description**

Let your imagination flow in Draw Your Design, a creative competition where aspiring designers bring their ideas to life on paper! Whether it's a futuristic outfit, a traditional masterpiece, or an avant-garde textile concept, this event challenges participants to sketch unique and innovative fashion or textile designs. Showcase your artistic skills, attention to detail, and design aesthetics as you compete to impress the judges.

If you can dream it, you can draw it! Join us and create your masterpiece

## **CREATIVE**

## **1. IPL Auction**

### **Description:**

IPL Auction: Bid, Strategize, Conquer!"

Step into the thrilling world of cricket strategy with IPL Auction, an exciting college event where teams take on the role of franchise owners to build their dream squad! With a set budget, participants must analyze player stats, outbid rivals, and create the ultimate team to compete in simulated matches. This event tests your cricket knowledge, decision-making skills, and auction tactics.

Think like a team owner, bid like a champion, and build a winning squad! Are you ready for the ultimate IPL challenge?

## **2. Contraption Cascade**

### **Description**

The Contraption Challenge is a creative and technical competition where teams design and build functional contraptions within a specified space. The objective is to move a ball from one end of the contraption to the other, utilizing innovative pathways such as loops, slopes, and jumps.

### **3. Chess Competition**

#### **Description**

Checkmate: The Ultimate Chess Battle!"

Showcase your strategic brilliance and tactical mastery in Checkmate, the ultimate chess competition! Whether you're a seasoned player or a rising chess enthusiast, this event challenges your thinking, patience, and precision. Compete against the best minds, outmaneuver your opponents, and claim the title of chess champion.

Think ahead, plan your moves, and checkmate your way to victory! Are you

### **4. Chem Crafter**

#### **Description**

The Chem Crafter Challenge is an event designed to test participants' problem-solving abilities in chemistry and designing skills.

### **5. Treasure Hunt**

#### **Description**

Treasure Hunt: Decode, Discover, Conquer!"

Embark on an exhilarating adventure in Treasure Hunt, where wit, teamwork, and quick thinking lead the way! Solve mind-bending clues, navigate through hidden challenges, and race against time to uncover the ultimate treasure. With each clue bringing you closer to victory, this event tests your problem-solving skills, creativity, and teamwork.

Are you ready to hunt, decode, and claim the treasure? Let the adventure begin!

### **6. Math – e- Magic**

Math-e-Magic is a competition designed to challenge participants' problem-solving skills and mathematical reasoning.

### **7. Mock Placement**

Mock Placement is an event designed to simulate a real-world campus recruitment process. It allows students to experience the challenges of placement drives, refine their interview skills, and understand industry expectations.

The goal is to familiarize students with the recruitment process by simulating rounds such as aptitude tests, group discussions, and personal interviews. It provides hands-on experience in facing interviews while offering constructive feedback to help students improve.

### **8. Shark Tank SGGS**

Shark Tank SGGS is a dynamic event where students pitch innovative business ideas, products, or startups to a panel of Judges and win exciting prizes.

## **9. Technical Paper Presentation**

Showcase Your Innovation!"

Step into the spotlight and present your groundbreaking ideas at Technical Paper Presentation, where knowledge meets innovation! This event provides a platform for students and researchers to share their insights, research findings, and technological advancements with a panel of experts. Whether it's engineering, science, or emerging technologies, this is your chance to demonstrate your expertise, enhance your presentation skills, and engage in thought-provoking discussions.

Innovate, Present, Inspire—Are you ready to make an impact?

## **10. Astro Quest**

The competition comprises of debate and quiz which is oriented about fascinating subject of space & Astronomy

## **11. Mega Quiz**

The Ultimate Battle of Knowledge!

Get ready for an electrifying test of intellect in the \*Mega Quiz Competition\*! This high-energy event challenges participants across various domains, including science, technology, history, current affairs, and more. Compete against the brightest minds, tackle thought-provoking questions, and race against time to claim victory. Whether you're a trivia master or a curious learner, this is your chance to showcase your knowledge and win exciting prizes!

Think fast, answer smart, and become the ultimate quiz champion!

## **CODESTER**

### **1. Coding Contest**

The Ultimate Coding Contest!

Put your programming skills to the test in the ultimate coding contest, an intense coding competition where logic, speed, and problem-solving take center stage! Compete against fellow coders to solve algorithmic challenges, debug programs, and optimize solutions within the given time. Whether you're a beginner or an expert, this event pushes your coding abilities to the next level.

\*Think, code, conquer—are you ready for the challenge?\*

## **ELECTROHUNT ( ELECTRONICS & TELECOMMUNICATION & ELECTRICAL ENGINEERING)**

### **1.Tech Quest**

The Digital Electronics Treasure Hunt is an exciting event comprising three competitive rounds, designed to test participants' problem-solving abilities, technical knowledge, and teamwork skills in a fun and engaging environment.

### **2. "Voltage Voyage:**

Navigate the Power of Electricity!"\*

Embark on an electrifying journey with \*Voltage Voyage\*, a thrilling competition designed for electrical engineering enthusiasts! This event challenges participants with a mix of circuit design, troubleshooting, problem-solving, and electrical trivia. Test your technical knowledge, practical skills, and teamwork as you navigate through exciting rounds to emerge as the ultimate electrical champion.

\*Charge up your skills, spark innovation, and set sail on this electrifying voyage! Are you ready?

### **3. Wire Whispering:**

Explore the Metal wire loop & try to find the solution

## **CENFEST (CIVIL DEPT ENGINEERING)**

### **1. CAD WAR**

**Compete in a** CAD event to showcase and celebrate your creativity, skills, and innovation of by utilizing the Cad software.

### **2. Town Planning**

Engage in urban development challenges in the Town planning.

Participants can formulate strategic plans for optimizing land use, infrastructure, and community amenities within a simulated town environment. Collaborate with team members to address various aspects of urban planning, including transportation systems, housing, green spaces, and commercial areas. Utilize advanced software tools and models to analyse data and simulate the impact of proposed planes on the community.

Present your comprehensive town plan to a panel of judges, highlighting its feasibility, sustainability, and positive impact on the quality of life for residents.

### **3. Bridge Building Competition**

Design and construct bridge using only specific materials provided. Test the Strength and Durability of your bridge as it withstands the weight of various load. Compete against other participant to see who bridge can hold most weight without collapsing & win Exciting Prizes

#### **4. Float a boat**

This Competition is to design & construct a boat using any kind of material available that can float on water & carry maximum weight without sinking
